Moldflow Insight

MFA
The Moldflow Academy

CERTIFICATE

We hereby confirm the participation of

Fabiha Aqil

02.09. – 06.09.2024

STUDENT TRAINING

- Introduction to injection molding technology
- Introduction to Fusion Simulation Extension
- Introduction to Autodesk Moldflow Insight
- Meshing, meshing criteria and meshing tools
- Material data in Moldflow
- Injection point and process settings (filling, holding pressure, warpage)
- Interpretation of simulation results & Autodesk Moldflow Communicator
- Modeling of gating systems
- Warpage analysis and optimization options
- Differentiation of shrinkage and warpage
- Types of cooling calculation methods
- Consideration of mold inserts
- Modeling of cooling systems and tools
